Education

- Vellore Institute of Technology, Bhopal** Madhya Pradesh, India
B.Tech, Computer Science (Gaming Technology); CGPA: 7.97 Nov 2023 – May 2027

Skills

- Programming Languages:** Python, C++, SQL
- Libraries:** Pandas, NumPy, Matplotlib, Seaborn
- Tools & Platforms:** Power BI, DAX, Power Query, Microsoft Excel, Git, GitHub
- Data Analysis:** Exploratory Data Analysis (EDA), Data Cleaning, Statistical Analysis, Customer Segmentation

Projects

- Hospital Emergency Room Dashboard | Power BI Analytics Dashboard** GitHub
Power BI, DAX, Power Query, Data Visualization
 - Analyzed **9,200+ emergency room patient records** using **Power BI** to evaluate patient wait times, department workload, satisfaction scores, admission rates, and operational KPIs.
 - Performed **data cleaning and ETL** using **Power Query** and developed **custom DAX measures** for KPI calculations, admission rates, and 30-minute service-level targets.
 - Built an interactive **Power BI dashboard** with 4 drill-down report pages, cross-filtering, KPI scorecards, and data visualizations to identify staffing requirements and operational bottlenecks.
- Sales Analytics and Customer Segmentation** GitHub
Python, Pandas, NumPy, Matplotlib, Seaborn
 - Cleaned and preprocessed **11,000+ sales records** using **Python and Pandas**, handling missing values, outliers, and feature engineering to create an analysis-ready dataset.
 - Performed **exploratory data analysis (EDA)** using Pandas and NumPy to analyze customer purchasing behavior, demographics, revenue trends, and product performance.
 - Applied **customer segmentation** and created 15+ data visualizations using **Matplotlib and Seaborn**, identifying revenue-driving customer segments and regional/category trends.

Experience

- CodSoft** Remote
Software Development Intern | Certificate Sep 2024 – Oct 2024
 - Developed a **Student Management System** in C++ implementing object-oriented programming, CRUD operations, data validation, and structured data management.
 - Applied **problem-solving, debugging, and software development** practices to build and test applications during the internship.

Certifications

- SQL (Intermediate) – HackerRank** | Certificate – Passed the HackerRank SQL skill certification test, demonstrating intermediate-level SQL proficiency.
- Exploratory Data Analysis – Accenture / NASSCOM** | Certificate – Completed certification covering exploratory data analysis techniques and analytical workflows.
- AI Fluency: Framework & Foundations – Anthropic** | Certificate – Certified in AI fundamentals, responsible AI practices, and prompt engineering.
- Postman API Fundamentals Student Expert** | Certificate – Certified in API testing and development workflows.
