Education

- Vellore Institute of Technology, Bhopal** Madhya Pradesh, India
B.Tech, Computer Science (Gaming Technology); CGPA: 7.97 November 2023 – May 2027

Experience

- CodSoft** Remote
Software Development Intern | Certificate Sep 2024 – Oct 2024
 - Developed C++ applications using object-oriented programming, modular software design, input validation, and exception handling..
 - Built a Student Management System implementing CRUD operations, file handling, and reusable software components following object-oriented programming principles.

Projects

- MockMate | AI Interview Preparation Platform** GitHub
React | Node.js | Express.js | MySQL | Prisma | Firebase
 - Developed a full-stack AI interview preparation platform using React, Node.js, Express.js, MySQL, and Prisma ORM following a modular Route → Controller → Service architecture.
 - Implemented Google Authentication using Firebase Authentication and synchronized user data with MySQL using Prisma ORM.
 - Designed relational database models and RESTful APIs for user management, interview templates, and question management.
- MentorBoard | Full-Stack Web Application** GitHub | Live Demo
React | TypeScript | Node.js | Express.js | MongoDB | JWT | Tailwind CSS
 - Developed and deployed a full-stack web application using React, Node.js, Express.js, MongoDB, JWT authentication, and RESTful APIs.
 - Implemented Kanban-based task management with CRUD operations, threaded feedback, analytics dashboards, and Zustand state management.
 - Designed modular backend APIs with Express.js and Zod validation for scalable and maintainable application architecture.
- EcoVerse AR | Augmented Reality Educational Application** GitHub
Unity | C# | Vuforia SDK | Blender
 - Developed an augmented reality educational application using Unity, C#, and Vuforia SDK with image target tracking and interactive 3D visualization.
 - Developed application logic in C# and optimized Blender assets to improve rendering performance.

Technical Skills

- Programming Languages:** C++, Python, JavaScript, TypeScript, SQL, HTML, CSS, C#
- Frontend Development:** React, Tailwind CSS, Zustand
- Backend Development:** Node.js, Express.js, RESTful APIs, JWT Authentication
- Databases:** MongoDB, MySQL, Prisma ORM, Firebase Authentication
- Developer Tools & Platforms:** Git, GitHub, Postman, Visual Studio Code, Vercel, Render, Unity, Blender
- Core Computer Science:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

Achievements & Certifications

- Competitive Programming:** Solved 300+ DSA and SQL problems across LeetCode, CodeChef, and GeeksforGeeks.
- AI Fluency Framework & Foundations (Anthropic):** AI Fundamentals, Prompt Engineering, Responsible AI, and Generative AI.
- Postman API Fundamentals Student Expert:** REST API Development and API Testing.
- NPTEL Elite Certification:** Human Computer Interaction (HCI).
